

# Third Party Compounding Order Form

Thompsons Pharmacy Eltham is a specialist compounding pharmacy located in Melbourne. The pharmacy is a QCPP ( Quality Community Pharmacy Standards ) accredited pharmacy and a member of the worlds largest professional compounding organisation ( PCCA ). We have been compounding for over 25 years and have the knowledge, experience, skill and staff to compound with confidence. We have developed a respected reputation for compounding and our service extends Australia wide.

Our team understands and respects the importance of the strong relationship you have with your customers. We believe your patients are exclusively your patients and that our compounding service is to provide you with products to help your patients.

It is important to understand that compounding is allowed under Australian law in specific circumstances where the supply is made for a specific patient. The supply to the patient must be transparent.

In order to supply one of your patients with a compounded product via your pharmacy please complete the following form and declaration

<b>Pharmacy Name</b>
